As people uniquely different, yet profoundly the same, this exhibit will engage us in that age old exploration of “Who am I?” and “What does it mean to be human?”

How we inhabit our space and interact, our vitality and verve, portray the very amulets of our existence on this earth, a record of how we engage in daily life and form community.

This exhibit celebrates our commonalities to foster a growing compassion for others and support a greater good as we move forward together towards a better future for all.
